FLORIDA'S FORENSIC INSTITUTE FOR RESEARCH, SECURITY, AND TACTICS

Training Announcement:

3 Day Force Science Course

**Introduction to Human Dynamics plus Body Worn
Cameras and other Digital Media**

24 hours

The first two days will explore Force Science, the application of unbiased scientific principles and processes in repetitive physical experiments designed to determine the true nature of suspect provocation and officer response (action-reaction dynamics). The goal of the program is to encourage law enforcement professionals to apply the important concepts revealed in this research when investigating, reconstructing, recalling or otherwise analyzing a use of force.

Day three will focus on the use body cameras and other recordings to evaluate a use of force encounter. It will allow you to enhance the fairness and thoroughness of investigations; create and analyze Body Cam protocols and policies; minimize liability and risk; shape the

training of your officers; enhance public perception and understanding of force encounters; avoid the spread of misinformation and misunderstanding; bolster your ability to enlighten your community and civilian review groups.

To register or if you would like additional information, please contact:
